Nitrox, dives,
weights, transfers &
taxes

Not included:
R/T airfare, hotels in
Quito
Dive staff gratuities
Beverages

Final payment due
December 1, 2021

Join PDR for a 7 night “bucket list” adventure aboard the MV Galapagos Sky. The itinerary includes diving the infamous Darwin and Wolf islands as well as the Central islands, where we will also enjoy 3 land excursions, exploring the unique volcanic terrain of this World Heritage site.

This state-of-the-art, 100 ft liveaboard will provide you with five-star service, meals, beverages, nitrox and even a hot towel post dive.

The Galapagos Islands are the hammerhead capital of the world! Also expect to see white tips, silkies, Galapagos sharks, giant schools of fish, rays of all species and, hopefully, whale sharks and mantas. Playful sea lions, penguins, marine and land iguanas, the ever cute Sally Lightfoot crabs and of course, the blue footed boobies will also be part of the land experience.

Due to strong currents, potentially limited visibility and cold water (60 - 70 degrees), diving in the Galapagos Islands is considered **ADVANCED**. 50 -100 dives plus the ability to get in and out of the dive tenders is required as well as a personal SMB and an audible surface signalling device. Dive accident insurance (DAN, DiveAssure) is also required and trip cancellation/interruption insurance is highly recommended.

You get it all with this trip! And will even cross the Equator and see the Southern Cross! What are you waiting for????!!!
